# **3. Exchanges**

## **Bib Number**

**Each relay team will have a single bib number for the entire relay. The bib contains the timing chip used for recording results. At registration, the team captain will pick up the bib and a bib belt to make exchanging the bib during the race easier.**

## **Making The Exchange**

**Each relay team is responsible for their own exchange. A runner finishing their leg will pass under the start/finish banner where the timing chip on the bib will be read automatically. Pass the bib off to the next runner who will loop around the outside of the banner and begin his or her loop. Until your runner is visible, please stay behind the flagged finish area.**

## **Tracking Your Team**

**Tracking your team is one of the most exciting parts of the relay! We will have live results that will be updated every time a runner comes through the start/finish area. You can also track the results yourself online at <http://bit.ly/ultracast> by phone. The chart on the preceding page is key to keep track of when your runner will be coming in. Remember, they can be 10-20 minutes early on a good night, so start watching for them early!**
